

**INTENDED USE OF AMA PHYSICIAN MASTERFILE CODES FOR SELF-DESIGNATION
OF PRACTICE SPECIALTIES/AREAS OF PRACTICE**

Self-designated practice specialties/Areas of Practice (SDPS) listed on the AMA Physician Masterfile have historically related to the record-keeping needs of the American Medical Association and do not imply "recognition" or "endorsement" of any field of medical practice by the Association. SDPS refers to a self-designated specialty which is not equivalent to nor does it imply ABMS® Board Certification. The fact that a physician chooses to designate a given specialty /area of practice on our records does not necessarily mean that the physician has been trained or has special competence to practice the SDPS.
